

Newsletter for March, 2008 from Club Data Corporation

This newsletter is sent to Club Office users to:

- Remind you that there is a new software update for Club Office on the Clubdata.Com website. In addition to Club Office, there is an update this month for SQLPos and an update for Event Manager.
- Provide helpful hints or information that you may find of value.

Software Updates:

It is our intention that all users on support will take the time to update their software once a month after month end so that everyone is on the "latest and greatest" version of code and can take advantage of the latest features. In the download area for Club Office on the Club Data web site, download the file, UpdateCDCO.EXE which will be the "normal" update or UpdateCDCOPlus.EXE if you have SQLPos also. Event Manager has its own update.

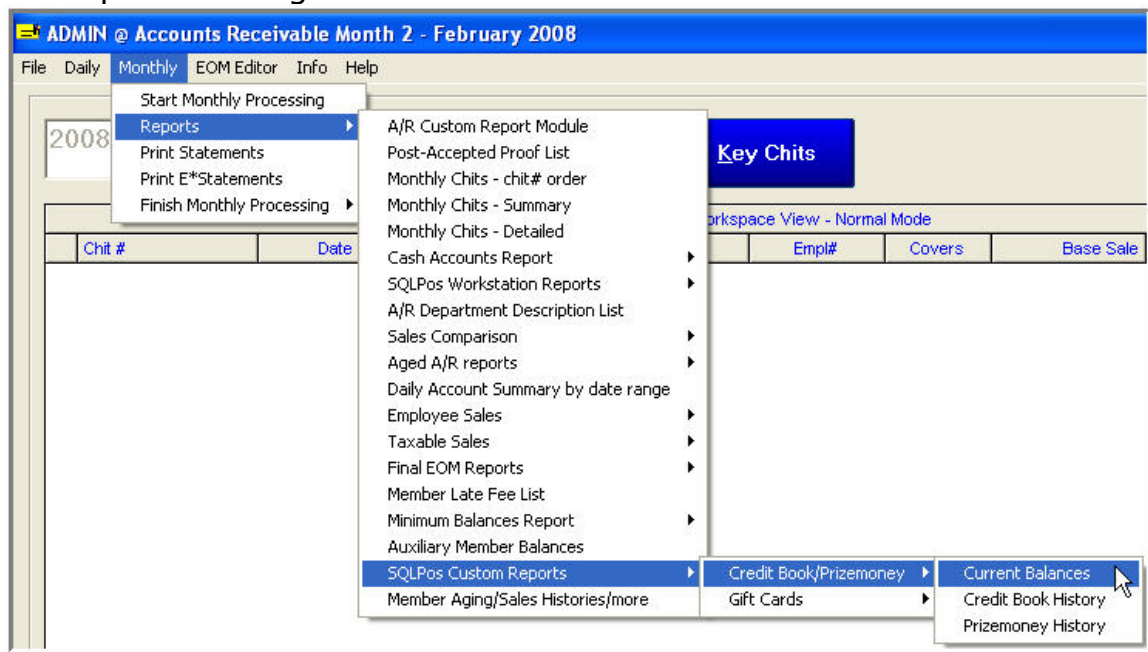

New Reports:

- Ability to print a report of user defined fields for all members. (Report Generator \ Membership \ Report 39)
- Inventory Report – Add department as a selection field for the Inventory Movement Report. (Inventory \ Reports \ SQL Sales Mgt \ Movement)

SQLPos pre-authorization. Customers using the built in pre-authorization for credit card sales now have additional options for the dollar amount that will or will not be pre-authorized for customer charging. The options are set up on the SQLPos configuration screen.

SQLPos Configuration - Workstation # 01

New Feature for Statements – Customers using our SQLPos module and tracking Prize Money and Credit Book balances can elect to have those balances printed on the monthly statement. This is in addition to the report showing these balances.

To have the Prize Money and Credit Book balances printed, we will need to create / modify a statement template for your club. Contact Club Data for more information.

Please share this newsletter with your colleagues.
