****
This coupon is valid for a $5 credit
toward the purchase of a season pass
at your next visit. You must present
the entire receipt when you check in.
****

If an inventory item is pre-set to print an additional message or coupon at the end of the receipt, receipt format 1 prints it. In this example, the "add round" item triggered a special coupon message.

TOTAL:                         38.75

       *** Hold Sale ***
   Member # 17    Robert Aldrich
```

> Hold receipt 3 has a more recognizable heading, quantities and item numbers and a different treatment of the member account information (if it is present).

> Hold receipt formats 1 and 2 are virtually identical, except that each has its own "footer" file that can be printed at the end of the hold receipt. Note the ticket number has -H appended to it, showing that it is a "hold" receipt and not a finished receipt. Also note that partial tenders can be printed in a hold receipt if the "hold with tender" option is enabled, and that if a member account is active, the account information line is printed, too.

Hold Receipt Formats 4-5-6

    Service Charge: _____

    Total: _____
```

Hold format 4 is much like hold format 3, except the member account information line is displayed in the traditional way. Note also the header says "Employee" instead of "Server"

Hold format 5 (when not a credit card sale) shows an additional gratuity and total line for the customer to add a tip. Of course, if the account is linked to a member, the member account information line appears as well.

Hold format 6 is virtually identical to format 5 except in place of the word "Gratuity" the words "Service Charge" appear.
